## -----SUMMARY-----

Motivated full-stack developer with a solid foundation in JavaScript and React.js, combining technical skills with real-world experience in fast-paced, customer-focused environments. Strong problem-solver who thrives in team settings and is committed to building user-friendly, responsive web applications. Background in restaurant operations, where I developed excellent communication, adaptability, and service skills. Dedicated to continuous learning and professional growth, I am always seeking opportunities to expand my skill set and contribute to meaningful projects.
